

# WEB PROGRAMMING II FINAL PROJECT

## PORTFOLIO WEBSITE

The portfolio website will feature my most recent animation projects developed at the School of Visual Arts. It will be scalable so it can be easily updated as new projects are added.

### PAGES

### ADDITIONAL FUNCTIONALITY

- Top navigation with logo, about, and contact links
- Bottom navigation with logo and copyright information
- All states and routes will be managed by React

### CONTENT MANAGEMENT

- All content will be updateable from a MongoDB database

### SKILLS TO BE REFINED

- Contact form
- React routes
- MongoDB

### PRECEDENTS

- <https://wexley-demo.squarespace.com/>
